

## 3 Card Poker / Casino Brag

The game is played with a single deck of cards and is closely related to the traditional game of Three Card Brag. But beware, Three of a Kind is not the top hand and Three 3's is not the top trial.

### PLAY AGAINST THE DEALER

Place a bet on the ANTE spot and, if you take the option to play, place an equal bet to your ANTE on the PLAY spot. The dealer can only play when holding a hand of Queen High or better. If the dealer cannot play, then all players remaining in the game will win 1-1 on their ANTE bet. There is no payout on the PLAY bet, which is returned to you.

If the dealer plays, then players whose hand outranks his are paid 1-1 on both the ANTE and PLAY bets.

### ANTE BONUS

In addition, a bonus is payable to the ANTE bet if the player has one of the following: Straight, Three of a Kind or Straight Flush. See below and table layout for odds. The ANTE bonus is always paid, even though the dealer may have a better hand than you.

### PAIR PLUS

This bet allows you to bet on the value of the hand you are dealt and is completely independent of the dealer's hand. You simply bet on the PAIR PLUS spot and, if you are dealt a Pair or better, you will be paid at the odds indicated below and on the table layout.

### BET BOTH

You may bet both of the above games at the same time. Each bet is considered individually and you may bet different amounts on each game.

If while playing both games, you do not wish to play a hand against the dealer by placing a bet on the PLAY SPOT, you forfeit both your ANTE and your PAIR PLUS bets.

### HAND RATINGS & PAYOUTS

	PAIR PLUS	ANTE BONUS
Straight Flush	35-1	5-1
Three of a Kind	33-1	4-1
Straight (A23 is the lowest Straight)	6-1	1-1
Flush	4-1	
Pair	1-1	
High Card	1-1
